

ARES™

It was time to turn it up. All new, from the ground up.

EAGLE TECH

The industry's first AI-powered locator uses an on-board neural network to automatically scan and select the optimal frequencies from the full spectrum. This full spectrum scanning covers 8,000+ frequencies—that's more than 8x the frequencies of Falcon.

OVER-THE-AIR UPDATES

Your locator only gets better with time: connect to Wi-Fi to download major upgrades and features like Steering Past the Locator, which effectively doubles the target steering range.

LOCATION TRACKING

Protect your investment. Mark as Stolen to lock your locator and receive GPS pings every hour, or use Silent Mode to secretly track it without alerting the thief.

COMPATIBLE WITH AURORA®

REDESIGNED SCREENS

More on-screen text, more supported languages, and visual step-by-step guides and warnings to help even your greenest crew member drill correctly.

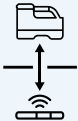

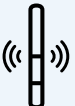

**4X
FASTER
SETUP**
THAN FALCON F5+

SUPERCORE™

This **all-in-one transmitter** lets you do more with less—pair while in the housing, calibrate both bands and power levels at once, and assign **rebar** to either band.

More versatility. More performance.
SAME 15-IN HOUSING.

	High	Standard	Low
*DEPTH RANGE	 160 FEET 49 METERS	125 FEET 38 METERS	100 FEET 30 METERS
*DATA RANGE	 200 FEET 61 METERS	150 FEET 46 METERS	125 FEET 38 METERS
*RUN TIME	 10 HOURS	40 HOURS	100 HOURS

SuperCell-R™

Our first rechargeable transmitter battery delivers reliable, repeatable performance and simplifies battery management.

- » Up to 300 charge cycles
- » 4 hours to charge to 100%
- » 2 hours to charge to 85%

SuperCell-R Power Kit Includes: 2 SuperCell-R rechargeable batteries, charging cradle and cord.
