

6 1/2" IADC637 Tricone

PRODUCT SPECIFICATION

Size: 6 1/2" (165mm)
IADC code: 637
Connection thread: 3 1/2" API Reg pin
Bearing: rubber sealed journal bearing
Nozzle size: 10/32"
Nozzle material: iron
Weight: 20kg

OPERATION SUGGESTIONS

Weight On Bit: 0.70-1.20KN/mm
Rotary Speed: 70-40 r/min

APPLICATION FORMATION

Medium hard with high compressive strength and high abrasiveness, such as limestone, dolomite, sandstone and chert, etc

- Actual drilling parameters must be determined for specific applications.
- The upper limits of WOB and RPM recommended in above should not be used simultaneously.
