

5 1/2" IADC537 Tricone

PRODUCT SPECIFICATION

Size: 5 1/2" (139.7mm)
IADC code: 537
Connection thread: 2 7/8" API Reg pin
Bearing: rubber sealed journal bearing
Nozzle size: 10/32"
Nozzle material: iron
Weight: 18kg

OPERATION SUGGESTIONS

Weight On Bit: 0.35-1.05KN/mm
Rotary Speed: 110-40 r/min

APPLICATION FORMATION

Medium soft with low compressive strength and harder abrasive stringers, such as hard shale, soft limestone, sandstone and dolomite, etc.

- Actual drilling parameters must be determined for specific applications.
- The upper limits of WOB and RPM recommended in above should not be used simultaneously.
